Camille's journey began in the small town of Richmond, Virginia. Growing up, she faced numerous challenges, including poverty, abuse, and societal prejudice. Determined to create a better life for herself, Camille sought solace in education and the arts. She eagerly participated in dance, choir, and drama classes, and excelled in her academic pursuits.

However, life had other plans in store for Camille. At the age of 14, she was diagnosed with a rare form of cancer. Faced with a life-threatening illness, Camille refused to let fear consume her. Instead, she drew upon her inner strength and resilience to fight the disease with unwavering determination.

During her battle with cancer, Camille discovered the transformative power of storytelling. She began writing poetry and short stories as a way to express her emotions and connect with others on a deeper level. Her words resonated with audiences, offering hope and inspiration in the face of adversity.

After completing her treatment, Camille realized that her purpose in life extended beyond her personal struggles. She wanted to use her story to empower others and help them overcome their own challenges. In 2013, she founded the Chasing Jenny Sunshine movement, a non-profit organization dedicated to promoting self-discovery, resilience, and social change.

Through the Chasing Jenny Sunshine movement, Camille created a platform for individuals to share their stories, connect with others, and access resources for personal growth. She organized workshops, spoke at conferences, and published self-help books, all with the aim of inspiring and uplifting others.

One of Camille's most impactful initiatives is the "Sunshine Squad." This group of volunteer ambassadors travels to schools, community centers, and organizations across the country, sharing the message of self-discovery and empowerment with youth and adults alike. By providing workshops, storytelling sessions, and mentorship programs, the Sunshine Squad empowers individuals to find their voices, pursue their passions, and overcome obstacles.
