For petals, use a small brush and gentle strokes. Create rounded shapes and vary the brush pressure to achieve a sense of depth and dimension. Add details such as veins and stamens with a fine-tipped brush.

Cottages and Houses on Rocks

Quaint cottages and charming houses evoke a sense of nostalgia and homeliness. To paint them on rocks, begin by sketching the outline with a pencil or a light brush stroke.

For the walls, use flat, even strokes. Add details like windows, doors, and chimneys using slightly darker shades. For a touch of realism, include small embellishments such as shutters, porches, and flowers.

Towns on Rocks

Transform ordinary stones into miniature towns by capturing the essence of buildings, streets, and landmarks. Start by dividing the rock into sections for

different buildings.

Paint each building individually, using a variety of colors and textures to create a unique cityscape. Add details like windows, doors, rooftops, and chimneys.

For roads and sidewalks, use a darker shade of gray or brown. Add tiny cars, trees, and streetlights to bring the town to life.
